ABOUT ME

Senior Web Developer and React.js Specialist with expertise in Next.js, scalable architecture design, performance optimization, and real-time application development. Experienced in building high-performance, SEO-optimized, mobile-first web applications using modern JavaScript (ES6+), advanced state management (Zustand), API integration, Supabase (BaaS), Node.js, real-time push notifications. Strong focus on modular component architecture, system scalability, rendering optimization, and cross-functional collaboration to deliver enterprise- grade, user-centric solutions.

EXPERIENCE

Mar 2025 - Feb 2026 **Software Developer, Ellocent Labs IT Solutions Pvt. Ltd.**

- Developed scalable React.js & Next.js applications, boosting page load performance.
- Implemented Zustand state management and modular UI components, reducing re-renders and speeding feature delivery.
- Integrated Supabase (BaaS) and real-time APIs, improving data sync efficiency.
- Optimized OneSignal push notifications, increasing user engagement.
- Delivered interactive features and ensured SEO & mobile-first design, enhancing UX and cross-device performance.
- Integrated modern technologies and frameworks.

Oct 2022 - Feb 2025 **Software Developer, Sogrow Venture Pvt. Ltd.**

- Enhanced backend communication through optimized APIs, caching, and advanced state management techniques to improve load time and data flow.
- Built modular, reusable UI components, boosting front end development.
- Optimized rendering and load times, improving application speed.
- Mentored junior developers and streamlined workflows, enhancing code quality and team productivity.
- Integrated real-time features and third-party services while implementing frontend security best practices.

PROJECTS

Business Website Development (2 Responsive Websites)

Technologies: Next.js, React.js, Zustand, RESTful APIs, HTML5, CSS3

- Developed two responsive, SEO-optimized websites, boosting user engagement and visibility.
- Implemented Zustand state management and optimized RESTful API integrations for high-performance frontend applications.
- Delivered mobile-first, cross-device compatible interfaces, ensuring seamless UX across platforms.

Sales Flow & Task Manager
Technologies: Next.js, Zustand, Node.js, TypeScript

- Designed and implemented a sales workflow system for lead management and automated assignment.
- Developed lead tracking features, improving follow-up efficiency and boosting conversion rates.
- Built task management modules with CRUD operations and drag-and-drop prioritization, enhancing productivity and user interaction.

Job Management System
Technologies: Next.js, Node.js (Backend), RESTful APIs, Zustand

- Developed a job management platform enabling companies to post job listings across multiple portals.
- Built the frontend with Next.js, focusing on performance, SEO optimization, and responsive design.
- Integrated AI APIs, third-party services, and interactive widgets, enhancing functionality, automation, and user engagement.

TECHNICAL SKILLS

- **Skills:** React.js, Next.js, HTML5, CSS3, SCSS, Node.js, Tailwind CSS, JavaScript (ES6+), TypeScript, Responsive, SEO Optimization, MySQL, Mongodb
- **State Management & Data Handling:** Redux, Context API, Zustand (optional if used in other projects), API Integration (REST), Supabase, Firebase
- **Tools & Libraries:** Git, GitHub, Vercel, Netlify, Webpack, Axios, Chart.js, Material-UI
- **Third-Party & AI Integrations:** OneSignal, AI APIs, Analytics Tools, Interactive Widgets
- **Performance & Testing:** Cross-Browser Compatibility, Frontend Performance Optimization, Unit Testing, Debugging
- **Collaboration & Workflow:** Agile/Scrum, Code Reviews, Mentoring, Documentation

EDUCATION

Apr 2018 - July 2022 **BTech in Computer Science & Engineering (CGPA 7.8)**
Career Point University, Hamirpur

Apr 2017 - Apr 2018 **12th Board**
Himachal Pradesh Board of Secondary Education
